

President's Report

Date: 4/14/2021

- Today is a special meeting. We are recognizing our member achievements. It makes me so proud to be associated with a squad that put their own safety on the line to help the community during the pandemic.
- Our focus continues on ensuring we raise enough funds and grants to continue our mission in face of rising costs
- Member safety is paramount, at this point all of our members wanting vaccinations have been vaccinated. Please reach out to either the chief or I if anyone needs help with that.
- 104 replacement remains on top of the list
- As mentioned last time, one of our goals is to build a strong cadre of non-riding members who can help with administrative and technical tasks. Please spread the word to anyone wanting to support the squad with computer software and technology activities.
- Working with VP Fundraising and Cadets President to get some fundraiser ideas in motion for the summer.
- The first big fund drive will be in June/July time frame
