

## Chief Report - Oct 2022

### Special Thanks

- Walker Gordon - Resident awareness event. Thank you to all those who attended. Good feedback about appreciation of what we do, and we hope this will go a long way in supporting our upcoming fundraiser and member mobilization exercises. These residential awareness campaigns are working well. Congratulations to the Cadet leadership for coming up with the idea and taking the initiative. We need to go through more, including Princeton Collection, soon.
- The Walkathon event was a terrific success. Sriram, congratulations on winning, yet not winning. Neena and Arun, thanks for literally running with it.

### Promotions

- Prat - on getting promoted to EMT 2

### Protocols

- Joydeep has expressed his desire to stop riding. Thank you, Joydeep, for your contribution. Harshit will be heading out on vacation, and our "hole" in the schedule will only get bigger. Please help out as much as you can is all I can ask now.
- The good news is that all three rigs are in service. Unfortunately, we have been out of service more this year than ever without personnel. We have tried to keep it to a minimum. Still, that bit hurts.
- 101 is getting rested. The rig swap is effective now.
- 104 and 105 are also in service
- I am Responding - the cutover is complete. Thank you, Jegan, Shripal, and Prat.
- CAD EMS Charts integration - ongoing and on schedule. Thank you, PPD, Joe, Scott, and Lt Olma, for your support.
- We have installed a new doorbell on the front door. No need to startle people by banging the doors anymore, especially this Halloween season

### Equipment/Supplies

- Supplies online

### Training/Certifications Up To Date

- Thank you, Ankit, for organizing the Medivac Drill. It was excellent, and the feedback all around was positive. Thanks for today's session as well, Ankit.
- As I mentioned last month, I am beyond thrilled to see close to 9 members set to go to EMT school this Fall.
- Do keep an eye on your credentials expiring, especially EMT and CPR.
- Please close out QA's raised and complete charts; several are still outstanding.

### Joint Drills

- Medivac Drill
- Upcoming MCA drill led by Harshit on his night; please join if you can. Contact Harshit, please.

### Events

- Elections are next month, all please consider nominating yourselves to take up various positions. Good luck!
